MAGIC TOUCH

What is Magic Touch?

Simply put, it is a powerful dust and scratch removal technology that does away with the hassle of learning complex and tedious software techniques. Being hardware-based, it works seamlessly with the scanning process to ensure that you get the best possible results when bringing images into your computer.

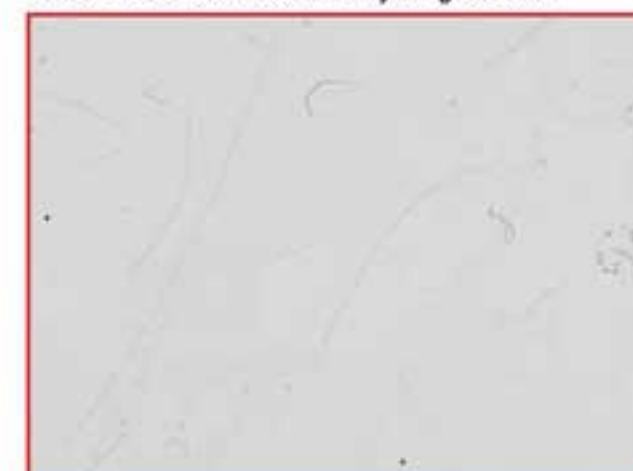

Simply select the Magic Touch option and the rest is automatically done for you! Dust, scratches and other flaws are intelligently detected and eliminated, restoring the image to its original beauty.

After

Dust & scratches detected by Magic Touch

Now includes

imagebox PLUS
